

PEPTONA

Will Help You

It puts the "PEP" into run down systems. It contains organic Iron, Manganese and Cod Liver Oil Extract, medicinal agents extensively used as a tonic and strength builder. Valuable for enriching the blood, of aiding assimilation of food, and for building the health generally.

If you have trouble recovering normal health after grippe, cold, bronchitis or influenza, if your blood is not up to standard, if your food assimilation is faulty, if you are tired or run down, then you need PEPTONA to help you. It is our best tonic; it is pleasant to take and easily tolerated by even the most sensitive stomach. We will refund your money if it does not do you good.

After the Moults—EGGS

REMEMBER, going through the moult is like going through a long spell of sickness. To force out the old quills and grow new feathers saps a hen's vitality.

If you expect your hens to be fall producers and winter layers, then feed them Poultry Pan-a-ce-a during and after the moult.

Dr. Hess Poultry Pan-a-ce-a

will start your pullets and moulted hens to laying

It contains Tonics that put your moulted hens in fine condition—Tonics that tone up the dormant egg organs—Iron that gives a moulted, run-down hen rich, red blood and a red comb. It contains internal antiseptics that destroy disease germs that may be lurking in the system. No disease where Pan-a-ce-a is fed. It pays to feed Pan-a-ce-a regularly.

It brings back the singing—it brings back the scratching—it brings back the cackle. That's when you get eggs; and it's eggs you want—fall eggs, winter eggs—when eggs are eggs.

"The Wolf"

Eugene Walter's Famous Stage Success.

This Vitagraph screen production is superior to the stage production. Wonderful scenery forms a striking background for this thrilling tale of the northwest. The primeval forest; the majestic mountains, the roaring cascades, the thick underbrush and the rapids through which birch bark canoes shoot give a color impossible to create upon the stage. The picturization shows nature as it is. The thrills become real and there is no appeal to imagination, no suggestions or vagaries; but vivid realities that make the story true to life and easily understood. IT'S COMING! ASK ABOUT IT!
